**What is Street Scramble?** A number of checkpoint locations are circled on the front of this map. The descriptions above tell you what to look for at the exact center of each circle. On foot or bike, visit checkpoints in any order, and answer the question at each one. Circle your answer on the separate sheet your team was provided. Each checkpoint has a point value. Your goal is to accumulate as many points as you can during the time limit. Go solo or in a team of 2-5.

**Return to the start location before the time is up.** There is a 10 point penalty for each minute (or fraction) you are late. When you return, we will collect your question sheet. You may not make changes to the sheet after you turn it in, so make sure you have circled everything you want to circle. You get to keep your map.

**Results** will be posted at [StreetScramble.com](http://StreetScramble.com) within a day or two. We'll post a note to our Facebook page when results are up.

**Important Rules**

- \* Do not leave the registration area until the start is called.
- \* Teams must stay together at all times.
- \* Circle answers only for checkpoints you actually visit. Don't guess, don't ask others for answers, and don't phone to get answers. Wrong answers will be penalized. Even if you know the answer ahead of time, don't circle it unless you go there.
- \* Travel under your own power only.

This map is reasonably accurate and up-to-date, however it is made from imperfect data and has not been checked or corrected in most places. We have made corrections only where it is quite important to this Street Scramble event. See the front of the map for a legend of symbols.

**Safety** You are strongly encouraged to wear a bright orange Street Scramble safety vest. Be very careful crossing the street and riding in traffic! Be courteous to other pedestrians. Cyclists are required to obey traffic laws at all times.

Our heartfelt thanks to the YMCA volunteers and all the other wonderful volunteers without whom we could not put on Street Scramble.

Thanks to our checkpoint sponsors, Café Velo, Diehl Ford, Boundary Bay Brewing Co., and Fairhaven Runners & Walkers, for supporting this event. And finally, a big thank-you to the Bellingham Whatcom Family YMCA for hosting us and providing day passes for all the racers!

**Special notes on map and checkpoints**

Checkpoint features are at exact centers of circles. There are 38 checkpoints, and the maximum possible score is 1000.

The data for this custom-made map come from the city of Bellingham, the Puget Sound Lidar Consortium (contours), and aerial and field survey.

The map is printed with magnetic north at the top, instead of true north. This means that the map is rotated about 16 degrees counter-clockwise from normal.

A number sign (#) in the checkpoint description means an address number. **Abbreviations:** N means North, S means South, E means East, and W means West; m means meters (about 3.28 feet)
